SUBJECT -Bye-laws for regulating the working of the Slaughter Houses in all Municipal Towns

---

With reference to your letter No L 928-37/M1 63-36-2 dated 29th July 1936 re the above, I have the honour to state that in the proposed bye-laws, the power of inspection of Slaughter houses is delegated to the Veterinary Inspectors and viewing the matter from an administrative point of view, there may not be a Veterinary Inspector, stationed in all Municipal Towns, and even if there be one, he will not be under the direct control of the respective municipal Councils Hence the relationship between the Veterinary Inspector and the Municipal Council has to be made clear

2 In cases, where the Veterinary Inspectors are not available, provision has to be made for supervision as defined in the bye-laws, by some other qualified persons, ie , generally Sanitary Inspectors and Chief Officers Subject to the above modifications, the bye-laws prepared by the Superintendent, Civil Veterinary Department, may be incorporated in the Slaughter house bye-laws in force in all the Town Municipalities

I have the honour to be

Re Draft bye-laws prepared by the Superintendent, Civil Veterinary Department, for regulating the working of the Slaughter houses in all Municipal & towns —

It may be pointed out that Bye-laws have already been framed in this connection and incorporated in the Mysore City Municipal Rule and Bye-laws in Chapter XV page 56

There is not much variance between the proposed and the presen bye-laws in force, in fact the present bye-laws seem more comprehensive Moreover the Superintendent, Civil Veterinary Department seems to be under the misapprehension that the management of the Slaughter houses is under the contractors Whereas in Mysore City th sale management is vested in the Municipal Council and only the right of collection of the prescribed daily fees is given to the contractor

There is no piggery in Mysore City and if the word 'Pig' is now inserted in the existing bye-laws the Municipality may be forced to build a piggery and I learn that sentimental objection comes in the way of having one close to either the sheep slaughter house or the beef slaughter house Apart from this, there are very few pigs in Mysore City and except the Coimbatore Sweepers no one takes pork Even in the sweepers' quarters, there is no trace of a pig Under the circumstances it does not pay to have a Slaughter house for pigs

Section 1 of the proposed bye-laws corresponds to Section 33, Chapter XV of the bye-laws verbatim

Section 2 corresponds to Section 34 In the existing section the Health Officer also is empowered to condemn any carcass or organ or any part of the carcass and direct the burial of the same whereas in the proposed section this power is vested in the President alone

Section 3 As per the existing section the Veterinary Inspector has to stamp the carcass before being removed from the Operation Room thus giving time for the complete depletion of the carcass of the blood which is quite necessary Whereas the Veterinary Inspector shall cause the carcasses stamped by some one, thus he can clearly wash his hands of the responsibility if a diseased meat is passed fit for human consumption and the section does not specify that the carcass

should be hung thus giving scope for removal of the carcass immediately after slaughter According to the existing section the Veterinary Inspector should see that all the carcasses exposed for sale bear the stamp and the Sanitary staff has to report any irregularity In the proposed bye-laws this duty of examining the stamp devolves on the Sanitary Officer and reporting of the violation of this rule, on the Municipal officers in charge of the Market It is better to hold the Veterinary Inspector and the Municipal Officers in charge responsible

Section 4 The proposed bye-law includes cattle and pigs and lays stress on the stamp whereas the existing one mentions sheep goat or any other horned cattle and specifies the hour between which the carcass should not be removed to the market A combination of these seems to read better and the section may run as follows Any person, who slaughters any sheep, goat or cattle which has not been or removes any carcass before A M and after 6 P to the market or to his house without the slaughter house stamp or who offers any obstruction or resistance etc ,

Section 5(a), (b), (c) and Section 6 need not be adopted as the slaughter houses are under the control of the Municipality

Section 7 requires the Veterinary Inspector to inspect the Slaughter houses between 6 A M and 7 A M daily but the existing section holds the Veterinary Inspector responsible for the conservancy and cleanliness in addition to inspecting them the time specified in Section 37 has to be altered to 10 and 2 P M and 3 P M and 7-30 P M respectively as the hours of slaughter have since been altered

Section 8 corresponds to Section 38 and requires no modification There is no clause corresponding to section 39 in the proposed bye-laws

Section 9 Mukkat- The privilege of private slaughtering may be extended to Hindus also as proposed

Bakrid:- The words ~~camle~~ Camel or cattle may be inserted before sheep or goat as proposed A clause restricting permission being given to slaughter after the Idga prayers may be added

Sadakah:- "Cattle" may be added as proposed

Sannath:- "Cattle" may be added as proposed

Pongal:- One sheep or goat per house may be added as the present section does not specify whether it is for a house, family or each individual of a family

Section 10 "Cattle" may be added as proposed

The penal clauses 42 and 43 have somehow been omitted in the proposed bye-laws

Section 11 as suggested may be adopted in toto

A slight modification of the existing sections on the lines proposed by the Superintendent, Civil Veterinary Department, will be acceptable
